## Personality Model

## Diagram 4 -- “Footnotes: Personality Functional Overview”

- (1) Ability to grasp the essence or idea which lies behind a body of thought and perceive the totality behind things. A state anchored in the moment; mentally leave behind your last environment or situation and similar associated past environments, which may hold negative associations; bring focus of attention fully into the present on current activity and objectives.
- (2) Review and examination of past memories/experiences, projections into future and possible scenarios. Pigeon-hole issues.
- (3) No emotional investment in outcome, spontaneity, creativity, non-attachment to the outcome, freedom from worry and stress, state of fearlessness, feeling connected.
- (4) Fear of loss, investment of emotional energy in outcome.
- (5) Receptive to giving and/or receiving; Freedom of motion; spontaneity of response; genuine; authentic interest; coordinated; centred; adaptable; responsive; spontaneous, connected; focused; happy; light; creative.
- (6) Resistance; self-centredness (narcissism); self-consciousness; Restrictive motion; disconnected; inability to express yourself; uncoordinated; unauthentic interest; bored; fear of rejection or failing.

## 1. Quality Communication

Resolution of intellectual/ Emotional issues;  
(Is it true, kind, necessary, right timing, helpful?)

## SYNERGY

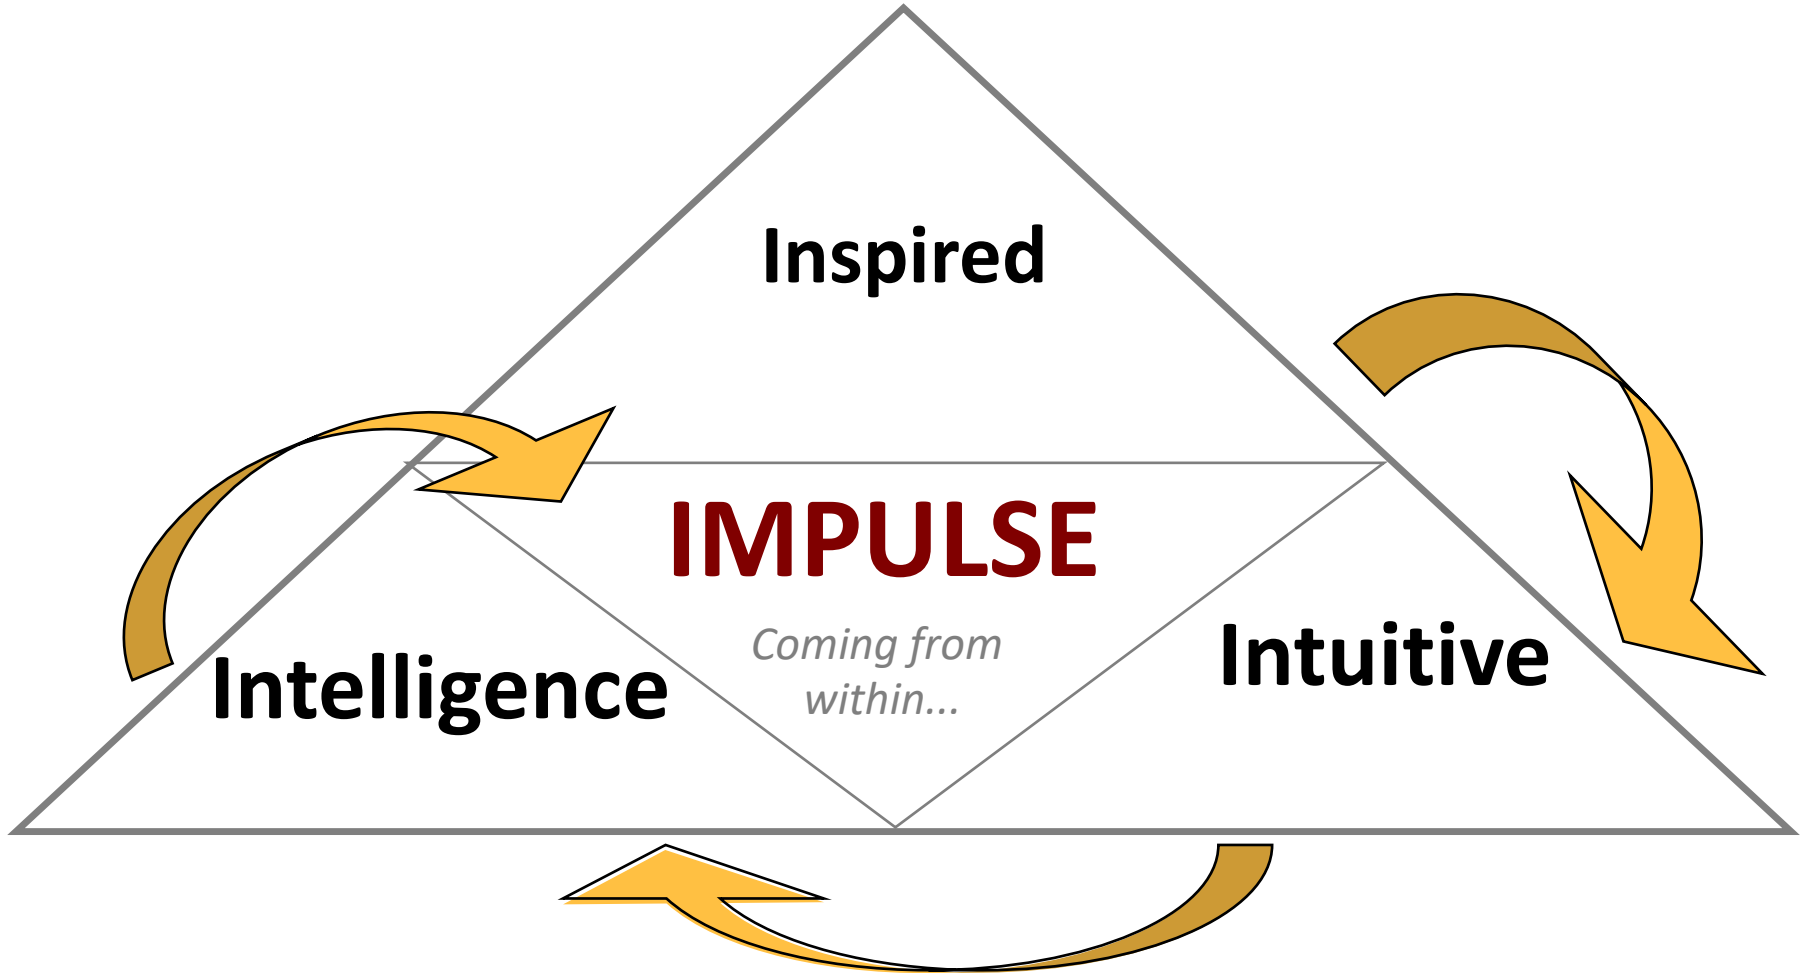

Optimal conditions for generating  
outstanding, original  
outcomes.

## 2. Clarity

Resolution at intellectual,  
emotional & physical levels/ creates  
Momentum/ motivation/ purpose

## 3. Alignment

Intellectual, emotional & physical  
aspects between all parties involved. Creates  
a fertile positive atmosphere for inspiration

# *Universal Manifestation Principle™*

*The inner science of creation!*

# Universal Manifestation Principle™

*The inner science of creation!*

The Universal Manifestation Principle states that the existence of a lower dimensional, vibratory energy state is the sole effect of a causal, initiating higher superphysical vibratory energy state expressing and moving through it.

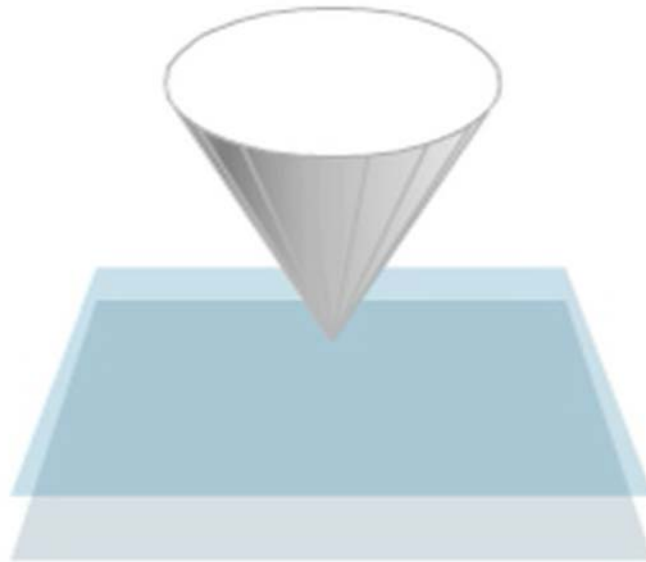

The lower dimensional energetic state is observed and experienced as a progressively emerging, “cross-sectional effect” of this initiating, causal higher superphysical vibratory energy state as it expresses through the lower dimensional vibratory energetic state via the process of change.

Change, in the three dimensional space of the physical world, is defined by the re-organisation of energy in space during the energetic transition of time.

Change in higher vibratory superphysical dimensional space is defined as a re-organisation of the intensity of energy during a variance in the focus of the energy.

*Observation of every form of  
physical manifestation and its  
expression reveals the universal  
integrity of this principle.*

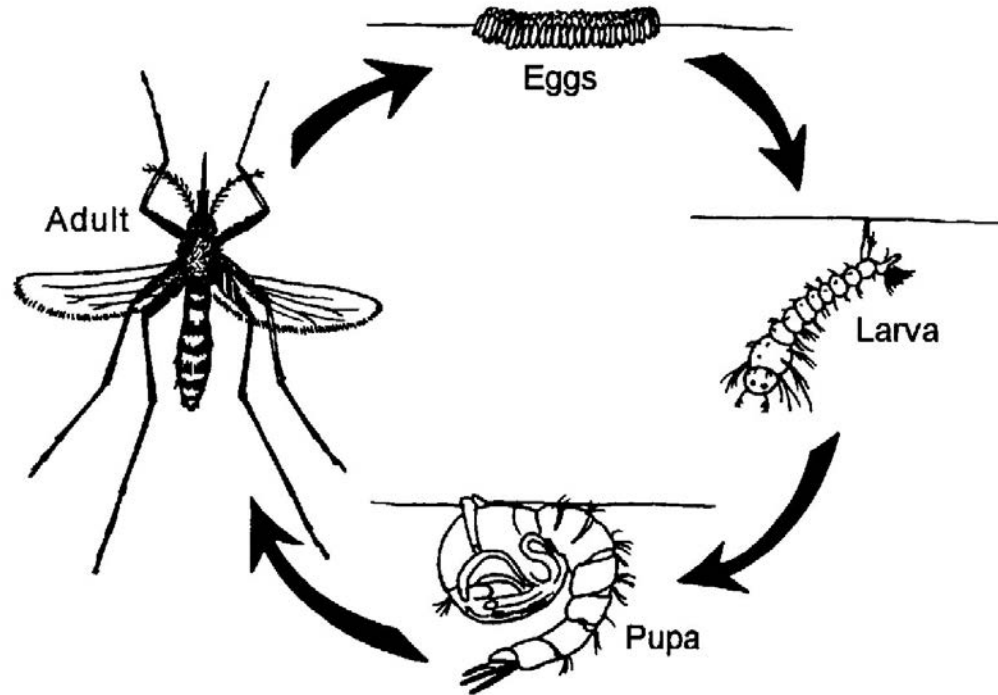

# Universal Manifestation Principle™

*The inner science of creation!*

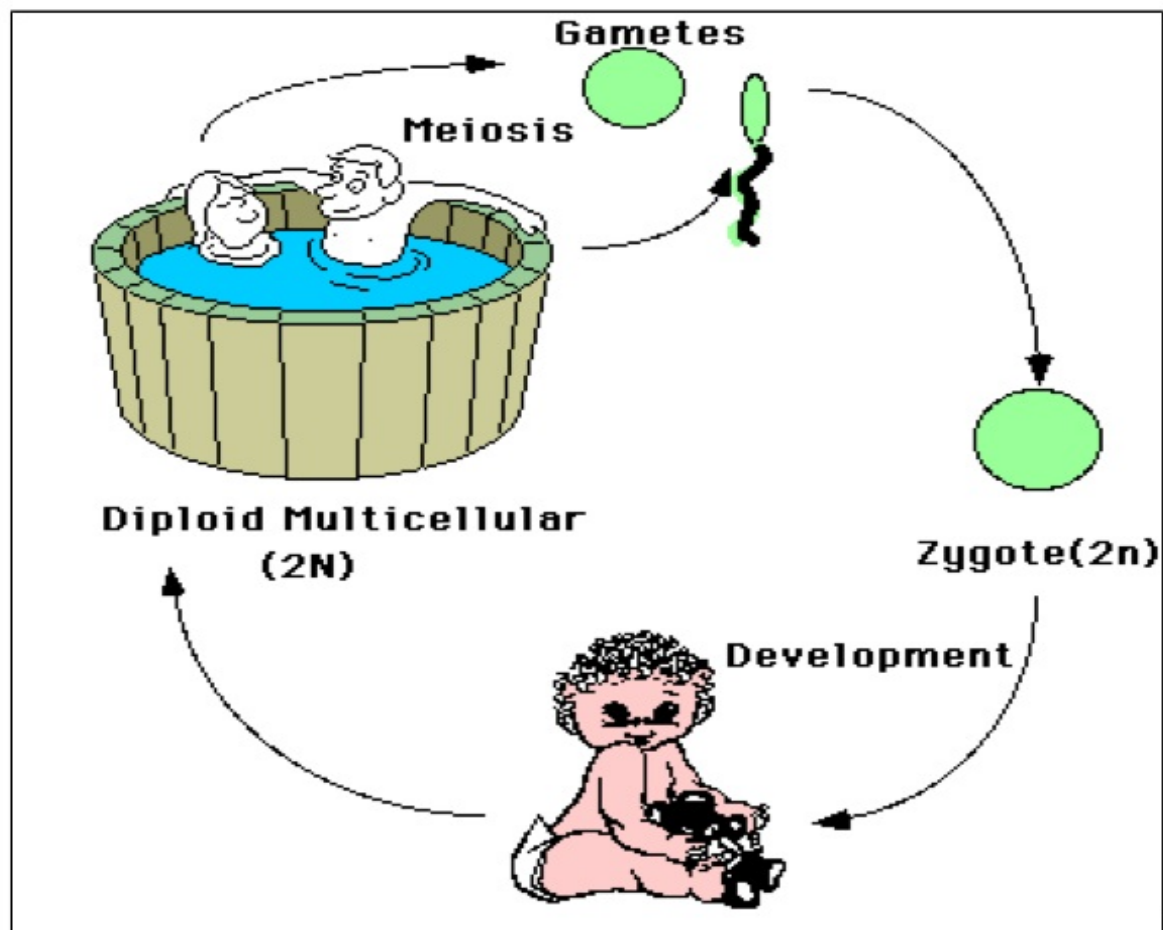

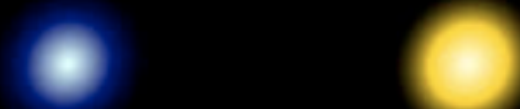

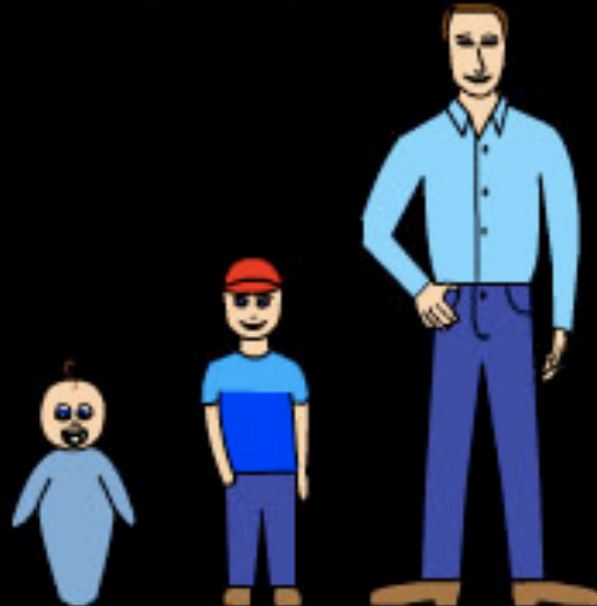

This principle is introduced in the book: “Soft Diamond Light, Only love matters”. It is the principle behind all physical manifestation. It relates to the higher and lower vibrational states of existence that we all operate and live in, and especially, how space and time in the physical world are an expression of these dynamics.

“You never change things by fighting the existing reality. To change something, build a new model that makes the existing model obsolete.”
