Seeing the invisible!

DIPLOMA IN INSPIRED THINKING

Spiritual Reality & Intelligence

The primary objectives of the Institute are to:

1. Facilitate a greater understanding as to the meaning and purpose of life;
2. Awaken the inner intelligence of the spirit and the heart;
3. Increase the productivity, creativity and capacity of the mind;
4. Explore how life and the universe works and
5. Inspire individuals to become of greater service to the world!

This is examined from a physical and metaphysical; microcosmic and macrocosmic point of view. The teachings and philosophies are based on the Ancient Wisdom, referred to in Greek times as “*Theosophia*”. This wisdom encompasses two fundamental schools of thought. Firstly, that the entire world, indeed the entire solar system, is a manifestation of God and secondly, that God dwells within us, as us.

Theosophia was introduced once again, in a more contemporary form during the early part of the last century. It embraces all philosophies, religions and scientific beliefs. It aims to satisfactorily and systematically explain why *everything* exists and has an intricate, interdependent and inter-related role to play part in the manifestation of the universe, as the universe.

The Inspired Thinking Institute also provides professional services; education; facilitates research projects; and media production to empower the creation of a new wave of global leaders for the 21st Century.

Leaders who have the vision and courage to create one world, living in peace and prosperity!

It seeks to facilitate a quantum shift in awareness that can take you *beyond the barriers of your own mind and into the spirit and wisdom of the heart!*

You will discover: A meaningful, well ordered, specific plan of evolution that extends to the far reaches of the solar system, of which we are one small important fundamental integral part. The only thing that separates anything, from anywhere, at anytime in the entire Universe is our state of consciousness. The only purpose of life is the never-ending discovery and expression of higher states of consciousness.

You will understand: We do not exist in isolation in this solar system. In fact we are slap dab in the middle of a beautifully designed, intricate plan of evolutionary unfoldment bringing our inner spiritual essence to its full realisation. Our purpose is to unfold our innate higher states of awareness and consciousness to discover there's more to life than meets the eye.

Electives

1. "NATURE KNOWS BEST: A LIVING EVOLVING BEING!"

Everything has a place within nature because the entire planet is the 'Body' of an actual living evolving 'Being'. If we realise everything is interconnected and more importantly, how everything has a place in nature, including people, then we can actively and intelligently participate in the scheme of things.

2. "CAREFUL YOU'RE EATING YOUR THOUGHTS"

Our thoughts and feelings produce shapes and colours around us, as does music! Therefore, the music we listen to and the words we speak have a very powerful, far reaching metaphysical and physical effect on our daily lives. Music can drastically effect our creativity and productivity. Our thoughts and feelings also effect the food we prepare, so the saying 'You are what you eat' takes on a totally new perspective.

3. "A MATTER OF LIFE & DEATH"

The fear of death is very common within our Society. Death - it is one of our greatest taboo subjects and probably the least generally understood!

4. "THE INTELLIGENCE WITHIN NATURE:

A NEW DIMENSION TO THE ENVIRONMENT

Can we communicate and cooperate with an intelligence within nature? How does nature materialize itself? Do Devas, Angels and Nature Spirits exist? What is their function on our planet? By going directly to the source within nature can we open a new powerful awareness and potential for restoring the balance back to all aspects of the environment?

5. "THE MIRACLE OF BIRTH"

A child is created by a magical invisible process of nature! You can actively participate in maximising the opportunities for your baby's intellectual, emotional and physical potential, before, during and after your pregnancy. Discover the metaphysical process of birth from the moment of conception - a truly miraculous manifestation.

6. "SLEEP: THE OTHER SIDE TO LIFE"

What really happens when you go to sleep? What are dreams? Everyone leaves their body when they sleep and depending on your willingness to do the training, it can be more fascinating and productive than when you're "awake."

7. "SOUL & THE PERSONALITY"

The common misconception is that we are a body, with a soul, hovering somewhere above us. The truth is exactly the reverse! The Soul, who we really are, takes on various vehicles to gain experience of lower vibrational states or worlds.

8. INNER SPACE - THE NEW FRONTIER

The extraordinary accomplishments in our conquests of outer space, with their discovery of sublime vastness, beauty and grandeur are equally matched with a largely, as yet, unrecognised frontiers of 'inner space', where the answers to outer space can be answered.

Life Goes On...

The lives of a specific Soul were examined in 1907 by Charles W Leadbeater. It was the first serious attempt to link together many lives of many persons in consecutive order and they throw much light on the workings of Dharma, Karma and the Law of Reincarnation.

They provide fascinating lessons in the working of karma life after life, full of instruction for the realisation of the continuity of human life.

The working of karma may be learned by a study of a series of lives and this remarkable study reveals the effects of one life on the next and often numerous lives . This often occurs in very dramatic, sometimes bizzare but always unflinching with divine justice. The insight provides unflinching courage and trust in the ultimate evolutionary process. It expands ones thinking extraordinarily beyond any mundane, narrow perspective.

We see the inter-relations of individuals,

The results of benefits and injuries, the links that draw the egos together,

The repulsion's that drive them apart, life after life.

We examine and study the last 24 lives of this Soul dating back to BC23,875 with births in 20 different countries,

They are made up of 12 Male incarnations and 12 female incarnations.
